

OPTUM VA CCN RECORD ALTERATIONS

Extracted source pages — three pulls of one account

Steven Barden — Member ID 1194538517

Three exports of the same Optum VA Community Care Network account, taken on three dates. They do not agree with one another.

Reference 01 — pulled 11 March 2024 — 135 results, unfiltered

Reference 02 — pulled 28 November 2025 — 137 results, unfiltered

Reference 03 — pulled 14 December 2025 — 18 results, dental and paid filter applied

What follows are the source pages themselves, grouped by finding. Each group is preceded by a page stating what to look for and which pull it came from. No page has been altered.

Complete unmodified exports are retained and available.

Page numbers cited refer to the original PDF exports, which are retained in full.

WHAT THESE THREE FILES SHOW

Three exports of one Optum VA CCN account, taken across twenty-one months. They do not agree with each other. Source pages follow.

PART ONE — THE DENTAL MATTER. Two years of work. This is the case as it has been understood.

1 A CLAIM WAS DELETED AND REBUILT

Dr. James Russell Green IV, \$6,568.00, surgery of 13 September 2022. Present in the first export with identifier ending **0000**, submitted 10/18/2022. **Absent entirely** from the second export, a complete 137-claim file. Present again in the third with identifier ending **0001**, submitted date moved to **10/01/2024**, and a facility name added that was not there before. The procedure contents are identical in both appearances. The third export is filtered to paid claims. It was paid.

2 A PROCEDURE WAS BILLED THAT WAS NEVER PERFORMED

The companion claim, \$8,217.00, carries four alveoloplasty line items at \$386.00 each — \$1,544.00 for bone smoothing that was not done. Corrective alveoloplasty was performed by a different surgeon nearly two years later. Those four line items are present in the first export, **absent from the second**, and present again in the third.

3 TWO IDENTICAL DENTURE CLAIMS WERE BOTH PAID

Same service date, same \$4,775.00, same procedure codes, same line-item amounts, submitted fifty-two days apart. **Both appear in the paid-filtered export.** \$9,550.00 for one set of dentures. Every other duplicate set in this record produced exactly one payment.

PART TWO — THIS IS NOT DENTAL. Found on 21 July 2026, in the course of cross-checking these same three exports against hospital admissions. It is the reason this correspondence is a day later than intended.

4 THE SAME IDENTIFIER CHANGE, ON A HOSPITAL BILL

Tampa General Hospital, \$19,648.23, date of service 6 June 2021. The identifier ends **0000** in the first export and **0001** in the second. Date of service, submitted date, amount and provider are unchanged. Different provider, different service line, no connection to the dental matter — the same signature as Finding One.

5 AN ENTIRE HOSPITAL ADMISSION IS GONE

The September 2021 admission — ten claims across three days, including **\$40,762.62** to Tampa General Hospital — appears in the first export and **nowhere in the second**. The date 09/06/2021 occurs five times in the first file and zero times in the second. The November 2021 admission is likewise absent. These are pancreatitis hospitalizations, unrelated to any dental provider.

6 THE PATTERN RUNS THROUGH SMALLER CLAIMS TOO

InPhyNet Contracting submitted the same date of service four separate times at **\$2,337.00** each, across six and a half months. Two of those four are present in the first export and absent from the second. The first export returned 135 results and the second returned 137, while at least twenty new

FINDING ONE

A claim deleted, then rebuilt under a new identifier

Claim for \$6,568.00. Date of service 13 September 2022. Provider Green, James Russell IV.

Reference 01, page 22 — the claim is present. Identifier ends **0000**. Submitted date **10/18/2022**. Facility field reads N/A.

Reference 02, page 30 — the same region of a complete 137-claim export. The claim is **not present**. The identifier does not appear anywhere in the file, and neither does the amount.

Reference 03, page 4 — the claim returns. Identifier now ends **0001**. Submitted date now **10/01/2024**, moved forward one year and eleven months. The facility field is now populated with a business name. The provider name is rendered in capitals.

The procedure contents are identical across both appearances: eight extractions, eleven sedation increments, one initial sedation, at the same amounts.

Reference 03 is filtered to paid claims. The rebuilt claim appears in it.

A corrected record retains its identifier and preserves an audit trail. This did neither.

Amount Billed: \$914.00

FINDING TWO

Alveoloplasty line items present, then absent, then present

Claim for \$8,217.00. Date of service 11 September 2022. Provider Green, James Russell IV.

This claim carries the alveoloplasty billing — procedure code **D7310**, “Alveoloplasty in conjunction with extractions, 4+ teeth or tooth spaces, per quadrant,” at \$386.00 per quadrant, four quadrants, \$1,544.00 total.

Reference 01, page 24 — four D7310 entries present at the end of the services summary.

Reference 02, page 30 — the claim is present and its services summary is expanded. Fourteen other line items are visible. The four alveoloplasty entries are **not present**.

Reference 03, page 6 — four D7310 entries present again, at the top of the summary.

The procedure was billed. It was not performed. Corrective alveoloplasty was performed by a different surgeon in August 2024.

Reference 03 is filtered to paid claims. This claim appears in it.

FINDING THREE

An entire hospital episode removed, including a \$40,762.62 claim

Date of service 6 September 2021. Tampa General Hospital and associated providers.

Reference 01, pages 35 and 36 — the episode is present. Ten claims across 6, 7 and 8 September 2021, totalling \$45,633.62. The largest is **\$40,762.62, Tampa General Hospital, claim H299X0XSJ0000**, submitted 26 October 2021.

Reference 02 — the date 09/06/2021 appears **zero times** in the entire file. The claim identifier appears zero times. The amount appears zero times. The episode is absent in full.

This is the only claim over \$5,000.00 that is present in one complete export and absent from the other.

The corresponding region of Reference 02 is included so the absence can be seen in place.

Reference 01 returned 135 results. Reference 02 returned 137. At least twenty claims were added between the two dates, which means a comparable number were removed.

FINDING SIX

Two identical denture claims — both paid

Ackley, Andrea. Date of service 17 June 2024. Amount \$4,775.00 on each claim.

Claim 24170W411824320000, submitted 18 June 2024.

Claim 24222W432197920000, submitted 9 August 2024.

Identical service date, identical total, identical procedure codes, and identical line-item amounts — \$2,377.00 maxillary and \$2,398.00 mandibular on both.

Both claims appear in Reference 03, which is filtered to paid claims.

\$9,550.00 for one set of dentures.

Every other duplicate set in this record produced exactly one payment. The submissions in those sets came back within one to fifteen days. This one came back after fifty-two.

Explanations of Benefit for both claims will establish the amount actually paid on each.

FINDING SEVEN

Residential treatment billing, and the gap that corroborates the record

Riverside Recovery of Tampa. Daily billing at \$3,000.00 per day.

The run begins 12 May 2023 and ends 2 July 2023 — forty-seven billed days.

Five consecutive days are missing from that run: **13, 14, 15, 16 and 17 May 2023.**

The St Josephs Hospital admission is dated **14 May 2023**, \$29,766.95, with associated claims on 13, 15, 16 and 17 May.

The residential billing stops on the day of the hospital admission and resumes on the day after discharge. The two records interlock exactly, with no overlap and no gap.

This corroborates the sequence independently of any account given by the patient.

Entries marked absent from Ref 02 are present in the first complete export and not present in the second complete export. Reference 03 is filtered to dental claims that were paid; absence from it carries no meaning for medical claims. Amounts shown as an em dash were not captured in the export text and should be read from the source page.

PROVENANCE

How this document was assembled

Every page in this compilation was extracted, unmodified, from one of the three original PDF exports named on the cover.

No page has been edited, redacted, cropped or re-rendered. Only the divider pages, including this one, were created for this compilation.

The three complete source exports are retained in unmodified form and can be produced on request for comparison against any page here.

Two findings should be confirmed visually against the original PDFs before being relied upon in a filing: the identifier change described in Finding Four, and the absence of the four alveoloplasty line items described in Finding Two. Both are drawn from text comparison and both are reproduced above for that purpose.

All amounts are as billed. Amounts actually paid will differ and are established by the Explanations of Benefit, which have not been included here.
